### BIRTHS

BORN—To Mr. and Mrs. Karl Mack of South River, Ontario, on November 8th, a daughter, Evelyn Elsey. Mrs. Mack was formerly Ethel McDougall of Champion.

BORN—To Mr. and Mrs. John Hartung of Champion, on Saturday, Nov. 26, a daughter.

## PUBLIC ACCOUNTS 1937-8, PROVINCE OF ALBERTA

The net funded and unfunded debt at March 31st, 1938, amounted to \$157,015,416.93 as compared with \$168,730,041.25 at March 31st, 1937, a net decrease of \$11,715,524.32.

Maybe you have wondered too what a woman thinks about when she's talking and playing bridge.

Figures don't lie, especially when clad in a bathing suit.

About the only house which never has a run in it is the fire hose.

A woman likes to shine in society, but she doesn't want her nose to do the shining.

A man has reached middle age when it tires his feet to break in a new pair of shoes.

Why shouldn't a man have interest in his house? The average home-owner is paying plenty of interest.

It's always hard for a genius to make a living, says a writer. But we thought it took a genius to make both ends.

They are giving badges to safe walkers in London. That's something a man can acquire by keeping constantly on his toes.

White collar workers live longer, says a doctor. Well, they have to live longer to be able to meet all of the monthly instalments.

Father knows when the children are home from college. They never find it convenient to permit dad to use his car.

United States is the home of very nearly twice as many people calling themselves Irish as there are in the Emerald Isle itself.

## LOCALS

F. Porter was a visitor in Calgary this week.

I. Ditto and E. Granlin are Calgary visitors today.

Mr. and Mrs. E. Granlin were Lethbridge visitors on Tuesday.

Bert Gill met with a painful accident recently, fracturing a rib in a fall.

Norman Cleave of Nanton is a visitor in town, a guest at the home of Mrs. Hargrave.

A. W. Jopling, who recently returned from Rochester, is progressing favorably.

Friends of Mrs. G. Williamson will regret to learn that she is confined to her bed this week.

Dance at Yale School, Friday Dec. 9. Gents 25c. Ladies bring lunch.

Mr. and Mrs. J. H. Doyle were Lethbridge visitors on Saturday.

Flowers for every occasion. Leave your orders at Sisson's Cafe.

Hon. Peter Dawson, M. L. A., returned from Edmonton last Saturday.

Mrs. J. Rutherford and Shirley were visitors in Calgary for a few days this week.

Mr. and Mrs. A. E. Shaw, Fay and Roy, of Nanton were visitors in town yesterday.

Miss Margaret Gatenby is assisting in the bakeshop after school and on Saturdays.

Visiting from Lomond, Harry Taylor spent the weekend at the home of his parents here.

Visiting in Lethbridge, Mrs. G. M. Campbell is a guest at the home of her daughter, Mrs. A. Anderson.

Quite a number from Champion attended the showing of "Snow White and the Seven Dwarfs" at the Carmangay theatre Monday evening.

Mark and Company are opening a general store in the Mark block, formerly occupied by McCullough Bros. Opening announcement will be made in the near future.

The Champion Ladies Social Credit Group will meet at the home of Mrs. Dawson, Tuesday, Dec. 6, at 8 p.m. As this is the interchange of gifts and a social evening, all members are asked to be present.

Mothers of Grade 1 pupils spent an interesting afternoon yesterday, Miss Holm having invited them to visit the primary room and see the children in a demonstration of their work.

If you like a real good western, you will want to see Buck Jones in "Empty Saddles." Also a two reel comedy, travelogue and cartoon. Bring the family they will enjoy it. Wednesday, Dec. 7, at 8:30 p.m. in the Community Hall.

Mrs. G. Urquhart was hostess to the Ladies' Aid last Thursday afternoon, when plans for the bazaar were completed and arrangements made to serve a supper following the bazaar on Saturday. A social hour followed the business session, during which a delicious lunch was served by Mrs. Ulrich and Mrs. Hargrave, assisted by the hostess.

Have you been on a trip? Have you friends from out of town visiting you? Do you know of any happening or of any unusual event that others would enjoy reading about? The Chronicle wants the news of the town and district and would appreciate your interest and assistance. Just call in, or drop a note in at the office.

The future of Northern Ontario's pulpwood industry may lie in the new plastic discoveries of the past few years. One type of glass made from pulpwood permits 30 to 40 per cent more light to pass through it than ordinary glass, with the added advantage that it is virtually unbreakable and impervious to varying weather conditions.

There is radium in the waters of the sea and ten times as much of it in the mud at the bottom as in the water. American Journal of Science reports. The amount of ocean radium is probably vast, but so diffused that it has no effect on human beings.

Oxygen loosely locked up in grain of white power is reported as a new treatment for healing wounds rapidly.

Oxygen is supposed to owe its healing power in wounds to its ability to drive out the kind of bacteria which live without oxygen.

The obstacle to using oxygen has been its quick evaporation from the wound. The powder is a new product of chemistry, zinc peroxide.

## CURLERS ELECT OFFICERS FOR 1938-39 SEASON

At a meeting of the Curlers held last Monday evening, the following officers were elected for the 1938-39 season: G. E. Volsey, president; P. Gatenby, vice president; A. W. McIntyre, secretary treasurer. A full discussion of plans for the season took place and several proposals will be made to the village council at their next meeting in an effort to form some definite working plan for the benefit of curlers and skaters this season.

Hon. John W. F. Johnson, lieutenant-governor of British Columbia from 1931 to 1938, and prominent for many years in the business life of the province, died at home in Vancouver on Tuesday morning, his 72nd birthday. He had been in failing health for some time.

## THE WORLD OF WHEAT

By H. G. L. Strange  
The Trade Treaties just signed by Great Britain, the United States and Canada constitute a new policy of great importance to Canadian farmers.

The goods farmers buy will be slightly lowered in price. Cattle men will have the opportunity of exporting annually about three million dollars' worth more of stock, and there will be a slightly increased export, too, of certain agricultural products other than wheat.

The six cent preference—that beneficial protection enjoyed by Canadian wheat—has been eliminated but our farmers have cheerfully given this up, for now wheat growers can approach the Government, figuratively with clean economic hands, and say "You have made a splendid start in lowering tariffs; carry on the good work. Lower the tariffs now against the goods of European countries so that foreign people can sell more of their goods and commodities to Canada, and so be enabled to purchase more of our wheat."

I am forced myself to the conclusion that lower tariffs form the only practical means by which Prairie farmers can sell that quantity of wheat which they must, I believe, produce each year in order to maintain their very economic existence.

Lower tariffs, too, would certainly promote the cause of world peace, and so would decrease the necessity for costly re-armament for war.

Following factors have tended to raise price: Indian crops need rain; consequent possibility of acreage reduction and considerable imports—It was in winter wheat unfavourable owing to ice formation and dry soil—Colder European weather expected to increase wheat consumption—India again buys a Australian wheat—Argentine corn quality on a very mediocre—Decrease in banana shipments from Jamaica.

Following factors have tended to lower price: India discontinues negotiations for Danubian wheat because of low quality—Persistent decline in value of British Pound Sterling—Six cent U. K. wheat preference repealed—Holland again raises import duties on cereals—Increase in 1938 world rye crop—Increase in wheat and barley production in Iraq.

When the King visits Canada next summer he will be offered "two elk and two black beavers" as his right under an ancient pledge.

The charter of the Hudson's Bay Company provided that "whenever the sovereign visits the territory of the governor and company of adventurers of England trading into Hudson's Bay" he shall be presented with two elk and two black beavers.

A man who is a nut has a hard time getting his pet ideas in a nutshell.

## Will Spend More To Train Youth

Ottawa To Increase Vote For 1939 — 50,000 Canadians Benefitted Last Year

With particular emphasis on placement features, the Dominion Provincial youth training program for the present fiscal year is making excellent progress, the Federal Labor Department said recently.

"While it is naturally too early to determine with accuracy the number of young Canadians who will benefit by the plan this year, it is probable that last year's figures will be equaled if not exceeded," the department's statement said.

"Approximately 50,000 Canadians between the ages 16 and 21 in agreement with the provinces have profited by the program. The exact figures are: Men, 22,501; women, 23,196; or a total of 45,697. Last year the amount voted by Parliament was \$1,000,000. This year the Dominion contributed in the neighborhood of \$1,800,000. Provinces contribute on a 50-50 basis.

Total Alberta jobless registered with the provincial employment service as applicants for work was 7,331 during the week ended Nov. 19 as against 10,499 for the corresponding week in November, 1937, according to the service report issued Wednesday. This year's total registrations included 6,637 jobless men and 694 jobless women.

AN ELECTRIC REFRIGERATOR means food economy, more varied meals. Solves many cookery problems.

A MODERN RADIO means hours of enjoyable low-cost entertainment.

AN ELECTRIC WASHER will eliminate most of the wash-day drudgery.

AN ELECTRIC RANGE means toiler food, a cleaner, smarter kitchen. Saves time, work, and the cook.

A VACUUM CLEANER saves housework, as well as rugs and furniture.

ELECTRIC TABLE APPLIANCES do any table work, and provide enticing dishes in record time.

## 1939 FORD CARS AND NEW MERCURY 8

PICTURED above are the two Ford V-8 cars and the new Mercury 8 announced by Ford Motor Company of Canada, Limited, for 1939. Top, Ford V-8 Fordor Sedan; centre, DeLuxe Ford V-8 Fordor Sedan; bottom, Mercury 8 Town Sedan. All three cars are individually styled. All have hydraulic brakes. The Ford V-8 is available in three models. It has a full grille and unobtrusive louvers at the rear of the hood. Interiors are roomy and well-appointed. The DeLuxe Ford V-8 has wholly new

streamlines, a deep hood unbroken by louvers, a low radiator grille in bright metal and wide spaced headlamps. Both Ford cars are powered with the improved 85 horsepower engine. The Mercury 8 is entirely new to the Ford-Lincoln line and fills a place between the DeLuxe Ford and the Lincoln-Zephyr. It is a big car with a 116-inch wheelbase. Its V-8 engine develops 85 horsepower. The front end design with low radiator grille reflects Lincoln-Zephyr styling. There is a choice of four body types.

## NEW FORD CARS NOW ON DISPLAY

As claimed from coast to coast as the finest Ford cars in the history of Ford Motor Company of Canada, Limited, the 1939 Ford V-8 and DeLuxe Ford V-8 are now on display.

Introduced in the Ford-Lincoln line is the Mercury 8, newest car in motor show and a centre of interest at the motor shows. The Mercury is a big car distinguished by modern stream-lined styling. Its design bears a certain family resemblance to the Lincoln-Zephyr, acknowledged style-leader in the industry.

Ford, Mercury and Lincoln-Zephyr cars are all equipped with hydraulic brakes. All offer refinements in design and many mechanical advances and improvements.

The DeLuxe Ford V-8, with wholly new streamlines, has a distinctive appearance of its own. At the same time, both it and the Ford V-8 share a family likeness with the Lincoln-Zephyr and the new Mercury 8.

The DeLuxe has a deep hood with long lines unbroken by louvers, low radiator grille in bright metal, and wide-spaced headlamps set into the fenders. It is powered by an 85 horsepower V-8 engine of even more rugged construction than the 6,000,000 already in use.

Hydraulic brakes are precision built to meet strict Ford standards of safety. Pedal action is exceptionally easy, and the brake shoes work in 12-inch drums with a total of 102 square inches of braking lining for quick stopping and long life.

A feature of the bodies of both the Ford V-8 and DeLuxe Ford V-8 is their silence, achieved as a result of exhaustive road and laboratory research into the cause and correction of car noises. By minor changes in design and by use of newly-developed insulating materials, engine and road noises are effectively kept out of the car. Interiors are comfortable, convenient and smartly appointed and equipped.

The Ford V-8 for 1939 has a full grille and unobtrusive louvers at the rear of the hood sides. Headlamps are recessed into the fenders. Decorative touches include a radiator grille ornament which incorporates a compact hood latch and handle.

Both the new Fords have the modern glove compartment, grille for radio speaker installation, cigarette lighter, ash tray, choke, throttle and other controls well grouped on new designed instrument panel. Both have insight beam control operated by the touch of a toe and a main indicator on the panel. Both have a new instrument that shows at a glance the condition of the battery. The parking brake lever, which actuates the lock shoes in the rear wheels by means of steel cables, is under the instrument panel to the left. Drivers seats are adjustable in all body types. DeLuxe cars equipped with two sun visors, the Ford V-8 with one. Both have dual windshield wipers with a single control and twin electric air horns.

Both in size and price range the Mercury 8 takes its place between the DeLuxe Ford V-8 and the Lincoln-Zephyr V-12. It is a big car and a powerful one, powered by a V-8 85 horsepower engine. The wheelbase is 116 inches and the overall length just over 10 feet. Brakes are hydraulic.

All the four body types available on the Mercury 8 combine an extra wide seat and maximum personal comfort in front and rear seats. The body types are a town-ster, a sedan, a sedan-coupe, and a sport coupe.

Wide visibility for driver and passenger results from low fenders and hood lines. The running boards are narrow and the space between is widened. Inside the body, which is widest at seat level, the interior spaciousness and the unusual luggage capacity were achieved without excessive body overhang as a result of able design.

The body interiors are quiet as well as roomy. With the windows closed, passengers can converse in a low tone, raising their voices even at high road speeds. Muscles of tone on the road and in the laboratory prevent this effective sound insulation.

The exterior beauty of the car is accentuated by the distinction of the Lincoln styling. The silver instrument panel, the steering column support and the 100-watt steering wheel are typical of the car's originality of design. The set of the panel permits the instruments to be seen easily. At the curve of the steering wheel can be seen the set of the panel permits the instruments to be seen easily.

In the standard appointments and in interior lighting, no other name is carried out. The cushions are in permanent non-paying arrangement and the upholstery in the lower class cars is either broadcloth or broadcloth in larger sizes. The seat back and seat cushions in the sport coupe are genuine hand-buffed leather. Cushions are exceptionally deep and comfortable. In all body types, the front seat is adjustable.

## Pedestrians— Watch Your Step!

Official statistics of the Department of Highways show that 40 per cent of last year's highway accident victims were pedestrians. There is a grim lesson in these figures which every pedestrian should take to heart, for his safety depends upon his carefulness. Pedestrians—that is, the sort who run across traffic—are definitely dangerous.

They gamble with their lives every time they amble joyfully off the pavement into the midst of a stream of traffic with an utter disregard of all safety regulations.

They are gamblers when they step from behind parked cars, unwittingly tempting death or serious injury every time they do it. They are gamblers when they select the middle of a city block as a good place to cross the street, and forget all about the regulations—made for their own safety—against jaywalking.

And in the face of all these very evident demonstrations of carelessness on the part of pedestrians, the blame for a fatality, when it occurs, is usually placed on the motorist. Very often he is not to blame, for if the pedestrian had used ordinary common sense, he would not have been in the path of the oncoming car, and the accident would not have happened.

Traffic regulations have been carefully prepared, warning lights and other signals are installed at busy intersections more for the safety of the pedestrian than anyone else. Yet they are disregarded by a very large percentage of the pedestrian public, despite the fact that more pedestrians are the victims of highway traffic accidents than any other single group. The average motorist is careful; the average pedestrian is not.

"Pedestrians, watch your step, is certainly the best of advice. Walk carefully and you are more likely to live to enjoy your walks."

## CANADIAN WINTER SPECIAL

Canadian Fish and Vegetables make grand supper dish.

The first snow flurries have come, and the cellar is stocked for the winter months. Of course, in these days of quick and efficient transportation, it isn't necessary to hoard a whole winter's supply at once, but the wise household keeps a reserve of good things for when the snow blankets the ground with white, and the family come rushing kitchenward with keen appetites.

A simple, nourishing meal—different is this.

Canadian Winter Special

- 1) cups dry beans
- 1 can kernel corn
- 2 cups milk
- 2 tablespoons butter
- 1 small onion
- 1 cup dried cod, or 1 can pink salmon, or chicken haddock

Soda Crackers.

Pick over the beans, wash thoroughly and soak in water. Drain and cover with water and parboil with the sliced onion. When almost soft add the corn and fish. Cook until the fish is done. Flake the fish through the vegetables, add the milk and butter. Season if necessary, depending on fish used. (Do not boil after the milk has been added.) Crush some soda biscuits with the rolling pin, and put some in each soup plate or bowl, then pour the soup on top and serve immediately.

Sweet mixed pickles and a salad of shredded cabbage and finely chopped mild turnip, tossed in mayonnaise, make a nice accompaniment for this meal in one dinner. The turnip, surprisingly enough, adds a nutty flavor to the salad. Slices of raw carrot may be added for color and the vitamin value.

In many Canadian households a hearty fish chowder, canned or homemade, is a standby for a cold evening because so little preparation is necessary. For instance, the beans for this Canadian Winter Special can be put to soak the night before and the whole thing combined and cooked in a short time. Try it this Sunday night, and see if you don't agree.

The average person in America chews 100 sticks of gum a year.

THE CHRONICLE

Establishment of community farms for delinquent children near Edmonton and Calgary, which has been advocated by private interests, will be investigated by a committee of provincial government officials, Hon. Dr. W. M. Cross, minister of health and relief said in Edmonton.

Mourning crowds on Saturday paid honor to Queen Maud of Norway, whose body arrived at Oslo aboard the British battleship Royal Oak from England, where she died following an abdominal operation. Crews of the Norwegian ships stood bareheaded at the rail, saluting the coffin of their queen, sister of the late King George V of England. A mourning salute of 21 guns was fired at one-minute intervals.

Half a million people are reported in pitiable plight in the Bihar district, southeast Punjab, India, following failure of the monsoon, summer rains on which their crops depend.

## COMMITTEE APPOINTED

A committee of three to represent Alberta in negotiations for the proposed merger of handling facilities of the western wheat pools and the United Grain Growers Limited was appointed at the annual meeting of the Alberta Wheat Pool in Calgary. Delegates named the following committee members: Andrew B. Wood of Dubuoy, J. R. Hannaford, Howie, and John Fowle, Bindloss.

TO RELIEVE PAIN AND  
DISCOMFORT OF A COLD

Follow Simple Method When  
Takes only a Few Minutes When  
"Aspirin" is Used

1. To ease pain and  
discomfort and reduce  
fever take 2 Aspirin  
Tablets—drink a  
glass of water in 2  
hours.

2. If throat is raw from  
cold, cough and dis-  
comfort, place 2 Aspirin  
Tablets in 1/2 glass of  
water... gargle.

Eases Pain and Discomfort and  
Sore Throat Accompanying Colds  
Almost Instantly

The simple way pictured above  
often brings amazingly quick relief  
from discomfort and sore throat  
accompanying colds.

Try it. Then—see your doctor.  
He probably will tell you to continue  
with "Aspirin" because it acts so  
fast to relieve discomforts of a cold,  
and so to reduce fever.

This simple way, backed by scientific  
authority, has largely supplanted the  
use of strong medicines for colds and  
cold symptoms. Perhaps the easiest,  
most effective way yet discovered.

Arctic Weather Forecasts

Would Assist Canadian And U.S.  
Farmers, Says Scientist

Arctic weather forecasts so far in  
advance they could guide Canadian  
and United States farmers in their  
crop planting were predicted by  
Captain Clifford MacGregor, explorer  
and meteorologist.

MacGregor, recently returned from a  
13 month Arctic meteorological ex-  
pedition, said he would recommend  
establishment, through international  
co-operation, of six weather stations  
above Canada north of a latitude of  
70 degrees. No meteorological data  
are collected in this vast area at  
present.

"There is a permanent low-pres-  
sure area in that Arctic region,"  
MacGregor explained, "and there is a  
strong drift of Polar air masses com-  
ing down from it. They move south,  
generally, instead of east over Green-  
land."

"Now if we could get cross-sec-  
tions of those Polar air masses re-  
ported it might be possible to pre-  
dict our weather, within limits, for  
three months ahead."

"The general character of a com-  
ing season might be learned so that  
farmers would know whether to  
plant a wet crop or dry crop. Such  
reports would be of great aid in the  
development of commercial air travel  
across the ocean."

Rainbow point, near Etah, Green-  
land, where his expedition wintered  
on the weather, would be a good place  
for a permanent station, MacGregor  
thinks. So would Thule, in Green-  
land, 100 miles above Cape York,  
Devon Island, Canada, is another good  
position.

The new station are about the last  
word in perfection, but they still  
lack a gadget that permits you to  
tune out your neighbor's set.

A cure has been found for hay  
fever. It is a serum extracted from  
ducks. Another quick remedy, no  
doubt.

More than two months had passed  
since that morning when Jack had  
walked dazedly back from the lake,  
giant with the weight of strange,  
foreboding sadness. Once the heat of  
their quarrel had begun to cool,  
memory had, to a degree, at least,  
brought about a truce in the bitter-  
ness between McKenzie Joe and him-  
self. The signing over of the neces-  
sary papers which had put Jack in  
possession of all the claims had  
been done in silence, it is true, but  
not taciturnity.

WNU Service.

CHAPTER VIII.—Continued

"Watch what you're saying!" Jack  
exclaimed.

McKenzie Joe eyed him.

"Pick up that gold if you can find it,"  
he sneered coldly. "You find it's  
it's that, with old scratches on it—  
scraped out from ledge riffles in the  
main body of the claim. It never came  
from gravel."

"Then I was lying?" asked Kay.

She swept her glance suddenly to in-  
clude another figure; Jeanne Towers  
had rounded the side of the cabin.  
Kay glared at her, then turned back  
to McKenzie Joe. "Answer me, was  
I lying?"

"Yes, you were lying," Joe answered  
quietly.

"Joe! Take that back!"

"Never mind doubting your fists,  
Jack," the older man said. "I could  
kill you the best day you ever lived.  
But I wouldn't. And I'm going to  
gettin' out of here."

"One of us has got to go!"

"Sure," the older man said. "I  
thought that all out—over there in  
the bush. But before I go, here's  
something for you. That gold find  
a come-on—"

"You've said enough, Joe."

"But I know it," Joe said. "Remember  
—you dangle just a little way in  
front of a horse to make him follow  
you into a corral. You're being  
led into something."

Jack Hammond lunged angrily to-  
ward his partner. To be con-  
fronted by Jeanne Towers, a queer,  
desperate expression in her face,  
Jack Joyce merely stood still, her lips  
laid, her eyes strongly narrowed.

The Northern girl braced herself.  
"Get hold of yourself, Jack," she  
commanded.

Slowly Jack Hammond moved  
back. There was a long silence.  
Then the younger man asked:

"Well, Joe, do I buy you out—  
or do you take my share?"

"He can't have your share!" Kay  
snapped. He's got to go!"

McKenzie Joe looked about him.  
Usually he wiped a shaking hand  
across his lips.

"I guess the young lady answered  
for me," he said. Jack stamped into  
the cabin, to return almost as  
quickly. He held in his arms four  
loose, mossy nuggets, he lumpy  
gold nuggets.

"It's everything I've got," he said  
shortly. "Sign up and get out."

"Joe!" Joe's straightened.

"Jack!" she cried. "You fool—  
you fool!" Then with a half sob, she  
whirled and ran back to her cabin.

self. The signing over of the neces-  
sary papers which had put Jack in  
possession of all the claims had  
been done in silence, it is true, but  
not taciturnity.

CHAPTER IX.

"Write to me sometime, Joe?"  
Jack had asked as the older man took  
his departure.

"Sure—I'll be glad to do that.  
Jack. If there's anything to write  
about, I can say."

"Don't hold it against Jeanne for  
that she said. Me 'n' Joe have  
always thought a lot of each other. It  
was kind of natural that she'd take  
up for me."

"Of course, Joe."

The older man had looked far down  
the lake, gaze smooth, and with  
drifting, imaginary islands floating  
in mirage.

"For that matter, she's always  
thought an awful lot of you. A lot  
more'n she did of me."

"I know it, Joe."

The older man had looked at him  
leemly, his eyes sparkling, as if he  
were about to say that this was just  
the trouble, that Jack didn't know it.  
But he only replied:

"Well, I guess I'd better be getting  
on—better be takin' advantage of this  
claim. Old Sapphire gets pretty  
mighty nosy."

"Yes—it does, Joe." Impulsively  
he had put forth his hand. "Shake  
with me, Joe."

The prospect had shifted his  
cane paddle suddenly and turned to  
his former partner. But had come  
—his hand gripped a faint grin of  
calm as against callus, the jerky in-  
take of heightened breath. There had  
been no other sound; only the swirl  
of Joe's moccasins as he had centered  
his weight in the canoe, and the soft  
plop of his paddle. After a long time,  
Joe's hand gripped a faint grin of  
calm as against callus, the jerky in-  
take of heightened breath. There had  
been no other sound; only the swirl  
of Joe's moccasins as he had centered  
his weight in the canoe, and the soft  
plop of his paddle. After a long time,  
Joe's hand gripped a faint grin of  
calm as against callus, the jerky in-  
take of heightened breath. There had  
been no other sound; only the swirl  
of Joe's moccasins as he had centered  
his weight in the canoe, and the soft  
plop of his paddle. After a long time,

WEDDINGS  
McGINN—HASTIE

St. Anne's Roman Catholic church, Dixon's Corners, was the scene of a pretty wedding on Saturday, when Miss Myrtle Joan Hastie, daughter of Mr. and Mrs. Jas. Hastie of Edmonton, Alberta, became the bride of Patrick, son of the late Jas. and Mrs. Alice McGinn of Dixon's Corners. Rev. Father Carthy of South Mountains officiating. The bride was given in marriage by her uncle, David Hastie of Peterborough. They were attended by Miss Kathleen Redmond and Mr. Tom McGinn of Ingoquois.

The bride wore turquoise blue sheen with navy accessories, and carried a bouquet of bronze chrysanthemums. The bridesmaid wore green crepe with accessories to match, and carried a bouquet of chrysanthemums. The mother of the bride wore black velvet. During the ceremony, Matt Flynn of Chesherville sang. Miss Margaret Sweeney of Ingoquois played Lohengrin's Wedding March, as the procession entered the church. The church was decorated with ferns and potted plants.

At the close of the ceremony, the party left for the home of the groom at Dixon's Corners, where 35 near relatives and friends had a wedding breakfast. The bride and groom left by motor for an extended honeymoon in western Ontario.

## CARMANGAY

W. MacFarlane was around town this week.

Mr. and Mrs. H. S. Parker are spending a three weeks' holiday at the Pacific coast.

D. H. Russell attended the annual meeting of the Alberta Wheat Pool held in Calgary last week.

Mrs. Halvor Hovde and Mr. and Mrs. Richard Eglund returned Friday from their motor trip to Chicago.

Mr. Harper, cattle buyer, bought a carload of cattle from W. Ohler this week, for shipment to the east.

The Ladies' Aid held a very successful bazaar on Saturday afternoon. Practically everything was sold and the net proceeds amounted to \$100.00.

The North Priscilla club met the second Wednesday in December at the home of Mrs. Gust Greene. On account of bad roads, the regular meeting had to be postponed.

See the thrilling pageant—"Wells Fargo" featuring Joel McCrea, Bob Burns and Frances Dee. At the Community Hall, Carmangay, on Friday, Dec. 2nd, at 8 p.m. sharp.

Billy Gebhart, who has been visiting at the home of Mr. and Mrs. Wm. Ohler for the past month, left for his home last week. He was accompanied by his cousin Miss Wilma Ohler.

At the organization meeting of the Curling club held last week, the following officers were elected: president, B. DeMarin; vice president, A. Lawrence; secretary treasurer, J. Hubka; W. Soderquist, and C. W. White were appointed as a membership committee.

A meeting was held last night to choose the skips who are: B. DeMarin; A. Lawrence, Scotty Chalmers, W. Chalmers, W. Dayman, W. Soderquist, H.S. Parker, J. Hubka, L. A. Stark, and Ed. Gibbie. The rinks are all filled and the first games, to be played as soon as the ice is ready, will be the president vs vice president.

## CARD OF THANKS

For the many acts of kindness by friends, during the illness of Bert Eskeland, and to the hospital staff, we wish to express our sincere thanks.

Joseph Eskeland  
 and Family.

COLLEGIATE  
NEWS AND VIEWS

We, the students of C. H. S., having accepted Mr. Marshall's kind offer of space in his paper for a school column, present the C. H. S. "News and Views." The purpose of this feature is two-fold. Firstly it will enable us to obtain experience in news paper writing as we will be responsible for its preparation. Secondly, it will give an opportunity to announce school functions, give interesting high lights of programs in our work and thus let everyone in on the humorous happenings from week to week. It is our hope that you will enjoy our column.

Ruth Depue isn't late very often but when she is, she always has a good excuse. In case you don't believe me, we obtained a copy of her latest—"Due to my insatiable desire for sleep, I neglected getting up in time to prevent my tardiness. Ruth Depue."

More News and Views next Thursday.

## TWO NEW FORDS for 1939

DE LUXE FORD V-8 FORDOR SEDAN

DE LUXE FORD V-8: Provides all the basic Ford features, with extra luxury and style. Remarkable amount of extra equipment included in the price. Hydraulic brakes, 85-hp. V-8 engine. Sets a new high for low-priced cars—in appearance and performance.

FORD V-8 TUDOR SEDAN

FORD V-8: Now five inches longer from bumper to bumper. Roomier bodies—more luggage space. New styling. Hydraulic brakes. Scientific soundproofing. Triple-cushioned comfort. 85-hp. V-8 engine.

## and the NEW MERCURY 8 for 1939

THE MERCURY V-8 TOWN-SEDAN

MERCURY 8: An entirely new car. Fits into the Ford line between the De Luxe Ford and the Lincoln-Zephyr. Distinctive styling. He-inch wheel-base. Unusually wide bodies. Remarkably quiet. Hydraulic brakes. New 55-hp. V-8 engine.

The new cars in the Ford Quality Group for 1939 give you a broad choice. Whichever you choose, whatever you pay, you'll get top value for your money. That is true of the lowest priced car or the highest. All have one important thing in common—inherent quality.

There are three reasons for this quality. They are—brilliant engineering design, quality materials and precision

workmanship—a combination that you will acknowledge when you have seen and driven any one of the fine cars in the Ford Quality Group for 1939.

Things are happening in the automotive world this year! And nowhere is the advance more marked than in this Ford Quality Group. See your nearest Ford dealer before you buy any car at any price.
